A HEADSTONE FOR MY FATHER

Hi my name is Ariel and I just very recently lost my Father. His final decision to be cremated and as a family we'll honor that. But my family and I would all like to have somewhere to go to see him, talk to him, pray with him, ECT.. Unfortunately funds for me are very limited seeing as I am disabled and only receive so much a month to live on. I know everyone's struggling right now. And I'm very truly sorry to everyone else that has lost a loved one. But please, if you can, help give a daughter the chance to still be with her father. Although his physical presence no longer remains, his spirit will always live on in the hearts of those who loved him. Any and all donations would be so very much appreciated.
