

CNA 2 COARSE

I am hard working married busy mama of 8. 4 of them are all at home I work fulltime about 50 hours a week. I also volunteer to visit hospice patients. My hubby works as well. Our bills unfortunately don't include extra school funding. I am going to work an extra 10 hours a week to make my goal but don't want to leave my children all day every day. This is sort of time sensitive as next course starts soon. I will be sending my money into this account as well to help reach my goal. Things have been a little harder without our papa/dad we lost this year but we will continue to try and move forward as he would want.
