

DESIRE CHILDREN ORPHANAGE

According to information from 2016, nearly 1,400,000 people die in Uganda from HIV/AIDs. This leaves a large group of orphans, possibly also suffering from HIV/AIDs, and too young to know how to care for themselves. Desire Children Help Ministries has used this information to carry out James 1:27, "Religion that God our Father accepts as pure and faultless is this: to look after orphans and widows in their distress and to keep oneself from being polluted by the world." There in Kimpala, Jinja, Uganda, Desire Children Help Ministries has started an orphanage to care for 45 young ones, providing food, medical care, and formal education. Besides typical orphanage upkeep, raising children is costly, and sometimes too costly. They go hungry. To help with cost and efficiency, Wadasa Isifu is looking to buy a plot of land near the orphanage to plant crops. This will also provide an outlet for experience farming for the children, who need life skills to survive when it comes time for them to provide for their own family and children. I would encourage you to pray for these beautiful people, caretakers and children. Pray about sharing your wealth to help those in need. It would mean the world to these 45 children.
