

DIGITAL EDUCATION FOR UNDER PRIVILEGED IN INDIA

As part of digital literacy for women folk of rural villages, it is essential to make them mainstreaming. Literacy rate of women folk is still 40% only in the Chitapur Block of Kalaburagi district in Karnataka state, India. They must cope up with the situation with digitization for day today livelihood business activities. We are not for profit organization working for the under privileged community for capacitating their capacities to sustain on their own. We raise money for: For educating the underprivileged community to get access of digital facilities in all sectors It is important because, Handhold Training to the beneficial community Donation amount will be solely utilized for the particular objective only Video & Photography will be made and sent to donor along with audited statement of accounts.
