## DRILLING OF BOREHOLE WATER

I am Geoffrey Onyango, the patron of Talented Children of grace-Kenya orphanage and aschool. Talented Children Of Grace-Kenya is an organization that helps to provide education and health care to orphans and vulnerable children in Kenya. We are looking forward to drill a borehole water to enable us to be self dependants, by growing our own food through irrigation, to minimize the orphanage cost of feeding the children. This is because our region lies in northern Sahara desert, and always experience little rain, this not conducive for agriculture. The water will also help us for drinking and cooking for the children. We are kindly requesting your donations to enable us achieve this. We need to do this by May 2018. We appreciate any donations, however little, it will counts. Be blessed everyone. [Talentedchildrenofgrace-kenya.org](http://Talentedchildrenofgrace-kenya.org)
