

EMERGENCY HELP FOR MY CHILDREN

Hello, My name is Marie, I am a single Mother, My children and I, were forced out of where we were living. The home owner was not taking care of the property. Our apartment was becoming a very, unhealthy living environment. The utilities, were shut because, they weren't being paid by the home owner. On top of going through my divorce & being a single mother, I had to pay debt that was owed in order for utilities to be turned on in my name. My daughter Alexis, and my son Anthony, are my whole world. We have been through a great deal of pain for years. I'm looking for help and support in any way!! We are grateful for so many things but, we really have no where to go. My father was a police officer for NYPD and was killed when I was younger, My mother lives in VA and unfortunately, the father of my children will not allow nor agree for me to relocate out of state. I went through a horrible divorce recently, lost my job & going to lose my vehicle as well, My payments are not up to date. I always helped anyone in need, I have a huge heart, I never imagined being in this situation. It's devastating! Any donations will be greatly appreciated. Please help my family and I. My children being happy and healthy is most imperative. I have struggled for so long, and just when you think it's going to be okay, you get knocked down and faced with situations that are out of your control. All our belongings were destroyed as well. The hot water heater was leaking along with flooding from the pipes. Please help us! Any donations would be greatly appreciated! Just to help get a fresh start. Thank you so much for taking the time to read our story. Marie Mosomillo
