

HARVEST HOUSE

Harvest House Harvest House is a place for kids with disabilities to go to hang out with friends and to work in the organic garden , to play with and care for animals and to learn important social skills and daily living skills. It is a community-based nonprofit that is dedicated to providing respite care for families of all income levels who have kids with special needs. The money being raised is to remodel and adapt the already-purchased building to be ADA compliant so that EVERYONE (all abilities, all genders, all cultures, all races) can have full access and everyone can be comfortable and safe. Your gift of whatever size will be an amazing benefit for these kids and you will be doing a really good thing! We thank you.
