

HELP A BROKEN FAMILY REUNIFICATE THEIR LIVES

on a Beautiful day in Chicago as my daughter took a nap in our Chicago home after she came home from school! My boyfriend and I sat in our room watching a movie, when suddenly a neighbor rings our bell and that was the ring that changed our lives forever! Behind my neighbor was a gunmen who forcefully used a gun that claimed the life of my boyfriend Larell Dobbs 28 years old! Larell was a family man who provided for his family as well my child whom isn't his biological daughter! The nature of the crime was so severe we couldn't return home! My daughter and I went hotel to hotel friends homes for 49 days worried about our safety as well stability! I lost my job because we are surviving witness that have been identified and was scared to return out of fear! I just found a home and we are safe I'm reaching out in need to provide basic home care for my daughter and myself a small token will help us maintain our safety until defendants are caught! My child needs home care by myself she has suffered severe mental n emotional trauma! It's gone take time and I'm will stand for justice at no cost! Reunification myself has been a challenge not being able to provide but our safety's important to me as well! I'm grateful and appreciative of all blessings
