

**"When somebody dies of cancer, we say they"lost their battle with cancer"as if between the two of them,cancer was the better, the stronger and the smarter. But you think about it. If I die from cancer,then cancer dies too. And if I survive cancer, cancer loses its battle with me.
CANCER NEVER WINS.**

HELP FAMILY, DAD HAVE CANCER. BOTH BROTHER NOW PASSED STAGED 4. CANCER(3 MEN PLAGUED).

Cancer, colon, prostate and bladder. I'm trying to raise funds for the Thomas family. It is so catastrophic when not just one family member diagnosed with stage 4. Cancer but three in this family. Their dad and his two brothers all in the same year 2020. They have already buried one uncle now second uncle in three days. what is ironic while one brother is attending other brother funeral he feels I'll don't know why. Now he diagnosed with cancer and died in five months. I hope donations can be given for travel expenses, food and hotel stay. The family will need to check on their father in a few weeks to see how he doing was the cancer eradicated by chemotherapy. These circumstances would be distressful on any family. If you can participate in donations to this family it would greatly appreciated. Most of all God ????? Blessing you all personally one by one and those that wanted to give. No donation is to small for the family .Thank You,Tiana JonesGod Bless Again ??????????
