I am a mother of five children, Wife, Credible Messenger, and a Survivor of commercial sexual exploitation of children. I at the very young age of 12 Years old was coerced into sex trafficking ring in New York. For years I was silent about what happened to me even when I was hauled out of my mom home and placed into the care of ACS. Being removed from my mom care I was pushed further into the streets and forced into sex work and survival sex. I eventually found my way out of the lifestyle through education and the desire to want to be better. I decided that I would no longer be silent about what happened to me and I set out to share awareness on the topic of human trafficking. As a survivor I know first hand how important stability and safety is for our youth ages 12-21 that have endure sexual and physical trauma. I want to be able to offer a safe house for victims and survivors of sex trafficking. I also know that those who have experienced this form of abuse need help re entering society, mental and physical , food, clothing, legal support, housing, financial stability and more importantly finding emotional support through effective mentoring. There are more than 65% of commercial sexual exploited youth that do not receive the

assistance that they need today due to failed delivery of services and support and the lack of discovering the youth that are silently subjected to sex trafficking through gangs, familial trafficking, peer to peer recruitment, and underground sex trade trap houses.
