

HELP WITH LEG BRACE AND SURGERY FOR MY MOM

My mother Deanna Kirby got into a really bad 18 wheeler accident March 6th, 2017. After a long battle with surgeries and all shes still not done recovering. She needs knee surgery because her left knee is almost completely gone and her right leg is sideways and needs a special brace to straighten it back to normal, and her left leg is 3ins shorter then her right leg and needs special shoes. We are in a bad situation rightnow with all her medical bills therapy bills paying for her medication and trying to pay all the bills at home. So please if anyone could please help our family out we would greatly appreciate it. Anything could help us out. Thank you in advance.
