

## HOUSEHOLD REPAIRS

I am a single disabled mother of 3 kids. I had a house fire Dec 2016. I still do not have water and the gas turned on. We are using a sump pump to get some water out of the well. It needs a pump and all pipes into house. The gas runs my furnace, water heater and my cook stove. I have been using an electric skillet to prepare meals. I really need this fixed before it starts getting cold. Any and all help is appreciated.
