

## I NEED HELP TO CONTINUE TO FEED 6-9 SEMI FERAL HOMELESS CATS.

I feed 6-9 semi feral cats every day & also leave out dry food on my balcony in front of my apartment so no cat will starve. It requires a lot of money to do this every day in both wet & dry food as I cannot leave dry food out at night because the numerous raccoons who reside around the creek come out at night & eat the cats food & chase them away from it which frightens them. I have been feeding some of these cats for 7 years or more on my limited Social Security money. It costs me well over \$100 a month to feed the regular number of cats I feed, with new ones showing up all the time on occasion. I will not let them starve but I could use help so I can stockpile wet & dry food so it would not be so much of a financial hardship for me. I also have 3 cats of my own to feed as well & I love all the cats and have had 25 cats in 42 years.
