

LOSTSOLDIER'S WORKSHOP FOUNDATION

LostSoldier's Workshop Foundation is an up and coming Non-Profit Public Foundation. Their mission is to support and bring Veterans together in each community, by providing a safe and like minded environment where all Veterans will be able to work with their hands, by learning woodworking, metalworking, Automotive and Recreational Vehicle repair skills. Along with this, LostSoldier's Workshop Foundation will have a computer lab for those that are not interested in the shop environment. LostSoldier's Workshop is looking forward to assisting every Veteran and bringing an end to the "22". With Each Donation, the money will go to the start up costs and taking them take the first step in securing their first workshop location. I know with the support of our communities and our love for our Veterans we can come together to give our Veterans a better place to learn and feel welcome again.
