

## MOTHERS RESIDENCY

Mother is left in bad condition after unexpected leave from Dad. I have been doing all I can and family is pretty distant. I lost my license along the way and that has made things even tighter. We have a passion for growing our music business which we have already ran successfully, just had to stop due to moving. Its getting cold outside and she is having a hard time getting job with her age. Money will be used to process security deposit and help with license. Bad credit makes it very difficult to get an apartment.
