

MY BABY NEEDS SHOULDER SURGERY

I am tracys fiance. I am raising money for her surgery and physical therapy. She injured herself from a fall in the tub. Tracy needs to have her bone scraped to be able to move her arm. Right now she cant move her arm without massive pain. There is also nerve damage that causes shooting pain down to her fingers. With this surgery she will be able to regain full motion of her arm. My baby cries everyday from the pain
