

## NEW LIVER, NEW LIFE FOR DIANNA

my mother is Dianna Lambert ,one of the most giving ,loving,caring,and generous people you could ever meet. She is a very strong woman who raised 4 children 2 of which were not even hers but she worked hard as a single mother and raised us good. A few years ago she fell sick and required a surgery to fix a small hernia but something went terribly wrong and she came out of recovery 10 hours later cut from the chest to the hairline, during the surgery her bowels, liver, pancreas , and intestines were cut now she needs a new liver and to make it worse her breast doctor found a lump in her left breast last week but her medical coverage doesn't cover the expenses during and after the transplant such as living expenses, food, transportation etc because after a transplant you have to stay by the hospital for several months and my mother only lives on a fixed income. I've seen her give her last dime to people to try to help and I only wish I could take all this pain from her but I can't . I pray someone can find it in their heart to do what she would do
