

## TEVORâ€™S RECOVERY/ MEDICAL EXPENSES

Tevor Norton a Proud Journeyman Lineman for IBEW Local 769 was in a traumatic car accident as he was hit head on by a semi truck while traveling home from working out of town. He was headed eastbound nearing the exit to the road home and the semi truck was heading westbound and crossed the median of I-10 and hit him head on. He was flown to UMC in Tucson, Az. He sustained multiple fractures in his right leg, a broken hand, a broken sternum, broken ribs and small fractures to his C6-C7 vertebrae in his neck. He is a hard working man and a father of 6. His wife hasnâ€™t left his side and will continue to be here as the road to recovery will be long. He is looking at, at least 6 months out of work if not more and possibly having to go back into surgery for a full knee replacement within the year. Anything will help! We love our Line Family and are asking for prayers for a quick recovery. Things wonâ€™t be the same but we are grateful he made it out with his life!
