TINY HOMES FOR THE HOMELESS

Tiny Homes for Homeless People is generating revenue to help build tiny homes for the homeless as well as others in need ranging up to and including the working class poor so they can be housed indoors at secured locations safe from the elements as well as attain a higher standard of humane living. This may also inable them back into or help provide more efficient and nicer living conditions that will intern make them better and more productive happier contributors to society. So together, with our funding and assistance we can all make that difference into a reality.
